

AGENDA

JANUARY 22, 2018

BC Summit on Surgical Improvement:

Advancing Pre-Surgical Optimization and Enhanced Recovery
VANCOUVER, BC

| | |
|-------------|---|
| 7:30-8AM | BREAKFAST |
| 8-8:45AM | <p>SETTING THE STAGE</p> <ol style="list-style-type: none"> 1. Patients First – My Experience as a Vascular Surgical Patient <i>Neil Nason, Patient Partner</i> 2. The BC Surgical Strategy – Working Toward a Common Vision 3. Perspectives from the Interdisciplinary Team – Panel Discussion |
| 8:45-9:45AM | <p>THE SURGICAL PATHWAY – KEYNOTE SPEAKERS</p> <ol style="list-style-type: none"> 1. Enhanced Recovery In Canada – Surgical pathways improve patient outcomes, reduce health care costs and improve the care experience for patients; however, we have an opportunity to better understand how we can bridge the gap between evidence and practice. Dr. Gregg Nelson will share his experiences about his own work as well as the broader work underway in Canada. 2. Surgical Optimization – A key part of surgical optimization includes preparing a patient for surgery which includes a collaborative process with the patient, primary care practitioners and many other health services. We will hear from Dr. Liane Feldman about the importance of why preparing for surgery starts well before arriving at the hospital. |
| 9:45-10AM | BREAK |
| 10:00-12PM | <p>BREAKOUT SESSIONS</p> <ol style="list-style-type: none"> Surgical Optimization in Canada Orthopedics and ERAS BC Surgical Optimization: The 'Shared-Care' Model International ERAS Pathway: Gynecology BC Action Plan: Urology BC Surgical Optimization: Specialist Based Model Primary Care: Optimizing Your Patient <p><i>Breakout session will be 35 minutes each, in three concurrent rooms. Timeslots TBD.</i></p> |
| 12-1PM | LUNCH AND NETWORKING |
