### HIGH IMPACT CHANGES

Yes, we've tried this  
 No, we haven't tried this yet  
 Need more information

» Leaders receive and review the improvement data			
» Identify, prioritize and participate in key education resources for current and new staff			
» Establish a train the trainer/ peer coaching approach			
» Establish and communicate a vision of resident-centered care for your care home working with staff and resident/ family			
» Identify and institute a bedside 'getting to know me'-type tool			
» Implement focused Safety Rounds and team huddles on the unit to proactively identify and care plan for resident behavioural concerns			
» Identify local champions to support staff during challenging care situations			
» Debrief with staff following incidents resulting in harm associated with BPSD			
» Introduce the BPSD Algorithm as the basis for the approach to assessment and management, breaking this tool down into manageable segments for reference and use of the tools			
» Through the train the trainer approach, implement an assessment approach			
» Implement behaviour tracking			
» Identify, test and implement non-pharmacologic approaches that are tailored to the resident's interests and abilities			
» Test and implement/improve behavioural care planning			
» Include care aids as well as residents/families in behavioural care planning			
» Enable a change in staff responsibilities as well as staffing coverage (e.g. move staff to the end of the afternoon) to address resident needs 24/7			
» Enhance medication review processes, specifically reviewing antipsychotic medications more frequently
